Course Information

Contact Information

Instructor:

Dr. Andrew Napper

Office:

Massie 323

Telephone:

740-351-3100

E-mail:

anapper@shawnee.edu

Office hours

Tuesday 1 – 2 PM

Wednesday 10 – noon

Friday 10 – 11 AM

Class Meeting Times

Lecture:

Monday 9:05 – 10:00 AM (Massie 020)

Wednesday 9:05 – 10:00 AM (Massie 020)

Friday 9:05 – 10:00 AM (Massie 020)

Lab:

Monday 10:10 – 1:00 PM (Massie 333) – **Section 01**

Wednesday 3:20 – 6:10 PM (Massie 333) – **Section 03**

- Dr. Derek Jones (djones@shawnee.edu) will be teaching lab section 03.

Grading & Assessment

Grading

4 exams	55 %
Online Homework	10 %
Final exam (Comprehensive)	15 %
Laboratory	20 %

Final exam

Wednesday December 9, 8 AM. (Massie 020)

Grading scale

%	Grade	%	Grade	%	Grade
>93	A	80–83	B–	67–70	D+
90–93	A–	77–80	C+	63–67	D
87–90	B+	73–77	C	60–63	D–
83–87	B	70–73	C–	<60	F

Grading errors

If you notice a grade error on Blackboard for quizzes, exams, etc.—you need to bring it to the instructor's attention in writing within one week of the due date (for an online assignment) or one week from the assignment being handed back (lab/exam assignments).

Online gradebook

Grades will be posted on Blackboard (<https://Blackboard.shawnee.edu/>). The grades will be weighted according to the percentages listed on the syllabus.

Class Schedule

Lecture material

Chapter 1	Matter and Measurements
Chapter 2	Atoms and the Periodic Table
Chapter 3	Ionic Compounds
Chapter 4	Molecular Compounds
Chapter 5	Classification and Balancing of Chemical Reactions
Chapter 6	Chemical Reactions: Mole and Mass Relationships
Chapter 9	Solutions
Chapter 8	Gases, Liquids, and Solids
Chapter 7	Chemical Reactions: Energy, Rates, and Equilibrium
Chapter 10	Acids and Bases
Chapter 11	Nuclear Chemistry

Exam schedule

Exam 1	Fri, Sep 18	(Aug 24 – Sep 16 lectures)
Exam 2	Fri, Oct 16	(Sep 21 – Oct 14 lectures)
Exam 3	Fri, Nov 6	(Oct 19 – Nov 4 lectures)
Exam 4	Fri, Dec 4	(Nov 9 – Dec 2 lectures)
Final Exam	Wed, Dec 9	(8 AM in Massie 020, comprehensive over entire semester)

TIP: Be sure to date your lecture notes so you know exactly what to study!

Websites

Notes, handouts, and other useful pieces of information will be available at the following

URL(s): <https://Blackboard.shawnee.edu>

<https://chem1121.ssuchemistry.com>

Homework & textbook

- The inclusive-access course-fee provides you with access to the textbook and an account with MasteringChemistry at a significant cost savings. The access-code for MasteringChemistry (for students who do not opt out of the inclusive-access plan) can be obtained by going to the “BNC Course Materials” course area on Blackboard, followed by clicking the “Reveal access code” link which should give you the required access code.
- You should log on and create your account as soon as possible! Online homework will be assigned on a weekly basis. The homework set may consist of tutorials, homework problems, and review problems. Each homework set will be made available on Friday by 5 PM and will be due the following Friday by 5 PM.
- You will be able to access online assignments on Blackboard via the “Pearson” link in the Course Content. The first time you take an assignment you will be required to log onto your MasteringChemistry account. After doing so, your account will be linked to SSU’s Blackboard site, and you will not have to log in separately.

Homework

Problem solving is an essential part of your study of chemistry. As you study, you should be working problems from your textbook on each topic. It is strongly suggested that you work the following problems which will serve as a guide for material for quizzes and exams. The answers and worked-out solutions are available to you in the solutions manual for the even-numbered questions in the book. Answers to the even-numbered questions are found at the end of our textbook.

Chapter 1: 36, 44, 48, 56, 62, 68, 78, 88, 90

Chapter 2: 34, 40, 42, 46, 50, 58, 76

Chapter 3: 32, 40, 44, 48, 60, 64, 66, 68, 72, 74, 75, 80, 84

Chapter 4: 26, 32, 36, 48, 50, 52, 62, 66, 72, 74, 76, 82, 84, 94

Chapter 5: 18, 24, 28, 30, 34, 40, 44, 62

Chapter 6: 20, 30, 32, 34, 38, 42, 64

Chapter 7: 26a, 27a, 30a–b, 42, 46, 50, 60a, 60c, 62, 64, 66

Chapter 8: 26, 32, 34, 40, 42, 44, 48, 50, 52, 54, 58, 62, 64, 82, 86, 92

Chapter 9: 28, 36, 38, 42, 46, 56, 58, 60, 68, 76, 80, 80, 84

Chapter 10: 40, 44, 48, 50, 54, 56, 58, 66, 76

Chapter 11: 46, 48, 54, 58, 78

Required Materials

Fundamentals of General, Organic, and Biological Chemistry, 8/e
—McMurry, Ballantine, Hoeger, and Peterson.

MasteringChemistry—Bundled with the textbook or a separate access card

Chemistry 1121 lab manual

A **non-programmable** scientific calculator such as a TI-30XIIS

Safety goggles or visorgogs (ANSI Z-87 approved)

☞ Safety glasses are **not suitable**.

Note: you already have access to both the e-textbook and MasteringChemistry today!

Laboratory

Laboratory information

Safety goggles or visorgogs (NOT GLASSES!) are required to be worn for all laboratories. They must meet ANSI-Z87 requirements (normally this information is permanently stamped on the goggles). Laboratory coats are recommended but not required.

Full length pants or full-length skirts are required to be worn in lab. Shoes that cover all parts of your feet are also required.

If you are improperly dressed for lab, you will be asked to leave and awarded a zero for the lab assignment.

You must remain in lab with your lab partner until the lab report is turned in. If you leave lab early you will be counted as absent and will receive a zero.

Lab reports must be turned in *at the end of each lab*. Late lab reports will not be accepted. Turned in lab reports must have your full name and your lab partner's full name clearly written on the front page to receive a grade.

Lab schedule

Week Beginning	Monday	Wednesday
Aug 24	1	1
Aug 31	2	2
Sep 7	Labor Day	No lab
Sep 14	3	3
Sep 21	4	4
Sep 28	5	5
Oct 5	6	6
Oct 12	7	7
Oct 19	8	8
Oct 26	9	9
Nov 2	10	10
Nov 9	No lab	11
Nov 16	11	Veteran's day
Nov 23	12	Thanksgiving
Nov 30	13	13

Laboratories

1. TECH 380—Safety practices in the chemistry laboratory (handout)
2. REAC 399—Detecting signs of chemical change
3. PROP 602—Determining density
4. PROP 375—Separating the components of a ternary mixture
5. REAC 480—A sequence of chemical reactions: transforming copper
6. STRC 631—Visualizing chemical structures using Lewis models
7. Handout—9 Bottles: An adventure in chemical detection!
8. REAC 390—Double replacement reactions
9. STOI 388—The empirical formula of an oxide
10. PROP 615—Studying some aspects of solubility
11. Handout—Determining the ideal gas constant, R
12. EQUIL 616—Introducing chemical equilibrium
13. EQUIL 411—Estimating the pH of household products & CHECKOUT

Course Overview

Who should take this course?

The typical audience for this course are: health-science, nursing, medical laboratory technology, and middle-childhood education majors. You may also be taking this course if you are interested in chemistry (yay!), are seeking to satisfy the natural sciences general education category, or curious about how things work.

General education program

Chemistry 1121 counts towards the Natural Science component of the General Education Program (GEP) and addresses Scientific Reasoning.

Class Resources

Is chemistry hard?

Yes. But not impossible. Consider setting aside several hours a week to practice end-of-chapter homework problems, forming a study group, re-reading your MasteringChemistry assignments, reading the textbook, and quizzing yourself. Reviewing old material every few weeks has been shown to dramatically improve retention of material in college!

Do I have to attend every lecture?

Not attending lecture tends to correlate with doing poorly in chemistry. Do not get into the habit of missing class if you can possibly avoid it.

At mid-term I will be reporting your expected grade and attendance to the Registrar. This information will be provided to your academic advisor(s), as well as student support services.

What should I do if I need help?

If you need help—don't wait too long before you seek it out! The following is a partial list of options that are available to you:

- Student success center tutoring. Stop by the success center and sign up for a tutor!
- Browse my [course website](#) for old exams, lecture notes, quizzes, etc.
- YouTube. Amazing selection of videos on any topic you can think about. Good channels to start with are: [Melissa Maribel](#) and [Tyler DeWitt](#). Dr. Napper also has a [channel](#) with CHEM1121 lectures, too.
- Office hours. Stop by if you have any questions about the course!

Course Policies

Electronic device policy

Cell phones (and other similar electronic devices, such as laptop computers, iPads, tablets, smart watches, etc.) are not permitted to be used during exams and lab.

Attendance policy

Regular attendance at lectures and attendance at all laboratories are expected and are strongly associated with success in the course. *Two unexcused laboratory absences will result in a course grade of F.* Missed labs cannot be made up. You may be excused from lab for illness (provided a doctor's note is submitted that clearly states the dates of illness), or because of hazardous weather conditions.

Excused absence policy

In case of illness, accident, family emergency, or university-sponsored activity, you may be excused from labs, quizzes, and/or homework. In case of a missed exam, a make-up exam will be provided.

For university-sponsored activities, an official excused absence slip must be obtained. This must be obtained in advance of the activity and given to the instructor one-week before your absence.

For other absences, suitable documentation (such as a doctor's note, police accident report, etc.) must be provided within one-week of the excused absence. For absences longer than one week, an academic dean or the dean of students may issue you an excused absence which you can present to your instructor.

Unexcused absences will result in a grade of zero for the assignment.
